

SHOCKING NEWS!!

The Air Quality Program for the Department of Environmental Quality has created a new webpage designed to provide:

- Current weather conditions (updated every 5 minutes)
- Visibility images (updated every 10 minutes)
- Air pollution concentrations (updated every hour)

Visit us at : WWW.GRICDEQ.ORG/AIR-MONITORING or **scan the QR code**

Special thanks to staff at OCM, OEM, CPAO, MIS, and Air Resource Specialists who helped with implementation of this webpage.

Lightning image captured at the Sacaton air monitoring site on July 23, 2019.
