Due to COVID-19 and Governor Lewis’s Executive Order #6, “Stay at Home” the students were acknowledged virtually during the Regular Meeting of the Governing Board on September 8, 2020. A certificate of Achievement and a personalized letter was mailed home. As the first awards of the 2020-2021 school year, the awards recognize students for working hard on their virtual learning assignments and maintaining a Learner’s Attitude. Online learning is a new challenge for all students and Dr. Paul expressed how proud she is to see students engage in the online experience to optimize their learning. She told the meeting participants, “how we respond during this challenging time will better prepare students for future obstacles.”
