

# Weather Outlook

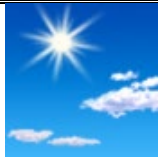

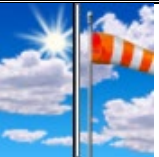

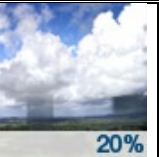

*In the past, dust storms, flash floods, wildfires, extreme heat, and severe winter weather have threatened GRIC. Now consider the possibility of home fires and even terrorist attacks. Are you prepared to make it on your own for a few days in the event of an emergency?*

1. Make a plan for what will you will do for an emergency.
2. Get a kit of emergency supplies.
3. Be informed about what might happen.
4. Being prepared means having your own food, water and other supplies to last for at least 72 hour
