

FROM THE OFFICE OF THE TRIBAL HEALTH DEPARTMENT

## **DISEASE SURVEILLANCE WITHIN THE COMMUNITY**

Under the Communicable Disease Ordinance, GRIC Code Title 17, the Tribal Health Department is authorized to investigate, supervise and isolate and/or quarantine individuals including households of highly contagious, life threatening communicable diseases.

Tribal Health Department's authority to locate and inspect persons who may be affected, extends to:

- public places;
- private homes with the consent of the homeowner; or
- private homes via search warrant (if consent is not provided)

We strongly encourage all Community members and residents of the Gila River Indian Reservation to cooperate with the Tribal Health Department and follow the directions of their health care providers in addressing the coronavirus/COVID-19 pandemic. Thank you.
