

# GRIC DEQ - AIR QUALITY ALERT HIGH OZONE

## Forecast for Friday 5/13:

A high pressure system in the area is causing elevated ozone concentrations. The 8-hour ozone standard was exceeded on the Community on Thursday (5/12).

Ozone concentrations are expected to exceed the 8-hour standard on Friday (5/13) and possibly Saturday (5/14) and Sunday (5/15).

## Health Recommendations:

- **Children / Elders / Heart or Lung Disease** - OK to be active outside for short activities like recess & PE. For longer activities such as athletic practice, take more breaks and do less intense activities
- **Everyone else** - OK to be active outside
