

Department of Environmental Quality Wildlife & Ecosystems Management Program

Notice to Community of Planned Pile Burn

Burn Location:

*District 1, Cain Rd &
N. Arizona Blvd*

Planned Burn Dates:

*January 19th – 30th,
2026*

Burn Time:

*8am – 12pm, when
weather is favorable*

Nui Kosh Restoration Site

**GRIC and other local Fire Departments
will be notified daily**

WHY BURN???

Ecological Benefits:

- Recycles nutrients from burned organic matter back into the soil, creating fertile conditions for new growth.
- Reduces water loss from evaporation and helps water soak into the ground, improving quantity and quality for streams and aquifers.
- Creates a mosaic of habitats. Encourages NATIVE grasses, wildflowers, shrubs, and reduces dominance by invasive species.
